

KAUSTUBH DHAMALE

Azure Cloud Support Engineer

Pune, Maharashtra, India | +91-9370614621 | kaustubhdhamale.work@gmail.com

[LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Azure Cloud Support Engineer with **2+ year of experience** supporting cloud infrastructure, monitoring production environments, and resolving infrastructure incidents within SLA timelines. Hands-on experience with **Azure Virtual Machines, Storage, VNets, NSGs, Azure Monitor, Log Analytics, Azure Entra ID, and Key Vault**. Strong foundation in Linux, Windows Server, networking, incident management, Terraform, PowerShell, Azure CLI, Docker, and Kubernetes fundamentals.

TECHNICAL SKILLS

Cloud: Microsoft Azure, AWS, Azure VM, Amazon EC2, Amazon S3, Storage Accounts, Blob Storage, VNet, VPC, Subnets, NSG, Security Groups, Load Balancer, IAM, Azure Entra ID, Key Vault

Monitoring: Azure Monitor, Amazon CloudWatch, Log Analytics, Application Insights, Resource Health, Alerts, Metrics

Operating Systems: Linux (Ubuntu, Red Hat), Windows Server

Networking: TCP/IP, DNS, HTTP/HTTPS, VPN Fundamentals, Load Balancing, Network Troubleshooting

Automation & IaC: Terraform, PowerShell, Bash, Azure CLI

Containers & Tools: Docker, Kubernetes Fundamentals, Git, GitHub

IT Operations: Incident Management, Problem Management, Change Management, SLA, RCA, ServiceNow, Jira

PROFESSIONAL EXPERIENCE

Cloud Support Intern

June 2024 – September 2024

ZSOFT TECHNOLOGY SERVICES, Hyderabad

- Assisted in monitoring **Azure cloud resources** using Azure Monitor and Log Analytics and reviewed alerts related to VM availability, CPU, memory, and disk utilization.
- Supported basic troubleshooting of **Azure VMs, Storage Accounts, Blob Storage, and network connectivity** issues.
- Performed basic Linux and Windows administration tasks including service checks, process monitoring, disk utilization, file permissions, and log analysis.
- Assisted in managing **ServiceNow/Jira tickets**, including ticket updates, categorization, SLA tracking, and escalation.
- Assisted with basic identity and access requests using **Azure Entra ID**.

L1 Cloud Support Engineer

September 2024 – September 2026

ZSOFT TECHNOLOGY SERVICES, Hyderabad

- Monitored **30+ Azure cloud resources** using Azure Monitor and Log Analytics, investigating alerts related to VM availability, CPU, memory, disk utilization, and application health.
- Resolved **80%+ of L1 infrastructure incidents** involving Azure VMs, storage access, service availability, and basic network connectivity while meeting defined SLA targets.
- Investigated system and application logs to identify failure patterns, reducing average incident triage time by **25%** through structured troubleshooting and faster escalation.
- Supported Azure infrastructure components including **Virtual Machines, Storage Accounts, Blob Storage, VNets, Subnets, and Network Security Groups**.
- Performed Linux and Windows administration tasks covering service checks, process monitoring, disk utilization, file permissions, and log analysis across cloud-hosted workloads.
- Managed and updated **100+ support tickets** through ServiceNow/Jira, ensuring accurate categorization, priority assignment, SLA tracking, resolution notes, and timely escalation.
- Assisted with identity and access requests using **Azure Entra ID** and supported secure configuration management through Azure Key Vault.
- Authored SOPs and troubleshooting guides for recurring incidents, improving knowledge reuse and reducing repeated investigation effort.

PROJECTS

Azure Infrastructure Monitoring & Cloud Support

Azure, Terraform, PowerShell, Linux

- Supported a cloud-hosted application environment by monitoring Azure VMs, Storage Accounts, VNets, NSGs, and application services using **Azure Monitor and Log Analytics**.
- Diagnosed issues related to resource utilization, disk capacity, DNS resolution, network connectivity, and service availability, improving initial incident diagnosis efficiency by **30%**.
- Provisioned and maintained selected Azure resources using **Terraform and Azure CLI**, promoting consistent and repeatable infrastructure configuration.
- Implemented automated alert validation and routine health checks through scripting, helping identify infrastructure anomalies before they impacted users.

EDUCATION

Bachelor of Engineering – Electronics and Computer Science

2022 – 2026

Shree L. R. Tiwari College of Engineering, Mumbai University

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)** – Microsoft
- Oracle Cloud Infrastructure 2025:** DevOps Professional, Multicloud Architect Professional, Foundations Associate
- AWS with DevOps** – Naresh IT | Git and GitHub for Developers – Infosys Springboard
